

and the other two were very small, and the last was the largest of all.
The author had not the name of the author, but he was a man.

He had a very large head, and his hair was black, and he had a very
large nose, and his eyes were very large, and his mouth was very

large, and his hands were very large, and his feet were very large,
and his fingers were very large, and his toes were very large, and
his hands were very large, and his feet were very large, and his

hands were very large, and his feet were very large, and his hands
were very large, and his feet were very large, and his hands were
very large, and his feet were very large, and his hands were very
